

WHAT YOUR CUSTOMERS THINK OF MYND

Post-purchase Survey

The majority of users know Mynd through recommendations from friends (65%), while another 14% discovered it via social media

Conclusions

- Friend recommendations are the main channel through which people recognize our brand.
- People also learn about us on social media (14%), and 7.4% mentioned Google as a primary channel.
- Affiliates do not represent a major channel yet.
- The same applies to marketplaces, with only 1.6% of users discovering our brand there.

How did you first hear about Mynd Mushrooms?

Users have many different reasons for deciding to test us: 25% are looking for a specific effect, 18% want to solve health problems, 12% are searching for a safe dosage, and 10% are driven by curiosity. Many people also mentioned a desire to replace alcohol (7%)

Conclusions

- Users are interested in our products to address health issues such as depression, anxiety, and mental health, representing almost 19% of users
- Many users are also interested in our product because it appears trustworthy, accounting for 24%
- 10% are simply curious about the effects.
- Another viewpoint is the high number of users who are interested in using our product as a replacement for alcohol, as it is more natural, nutritional, and safe

What sparked your interest in Mynd Mushroom products?

The top 3 factors that most persuade people are recommendations (25%), product consistency (18%), and a good price (13%)

Conclusions

- Friends' recommendations are a major asset in persuading people, influencing 25% of users.
- Simply having the product consistently available is another important factor for 18% of users.
- Users also mention price (13%) and taste (13%) as primary factors that persuade them to complete the purchase.
- Fast delivery was highlighted by 11% of users, making it a secondary but still relevant factor.

What were the top 3 factors that convinced you to purchase from Mynd Mushrooms?

Users have serious problems finding safe options; 24% are searching for a reliable provider, 22% are unsure about the right dose, and 14% are concerned about inconsistent products

Conclusions

- For users, finding a trustworthy place is the main concern when they are trying to find these products, mentioned by 24% of users
- Another 14% of users point out concerns about product inconsistency, and 12% mention poor quality. In this market, it is rare to find a product that is both good and consistent. When users find this kind of product, they are likely to recommend it
- Another challenge is finding the right dose, mentioned by 22% of users, as it requires self-knowledge and experience.

What has been your biggest challenge, frustration, or obstacle in finding the right product?

Users almost did not buy due to the price (21%), the fear of being scammed (9%), and a confusing website (9%). They also reported concerns regarding legality or the possibility of not receiving it

Conclusions

- The main factor that almost stopped users from completing a purchase was price, affecting 21% of users, which indicates a higher level of trust in our brand.
- Even so, 12% of users reported fear of being scammed, and an impressive 9% cited our confusing website as a major demotivator for completing the purchase.
- Overall, lack of trust and a poor website experience impacted more than 20% of users when they were trying to complete the purchase.

Was there anything that nearly stopped you from purchasing from Mynd Mushrooms?

Before completing their purchase, 17% of users were concerned about quality, while another 17% about the effect (how they would feel); Users were also worried about not receiving the product, citing concerns such as illegitimacy, scams, or delivery issues

Conclusions

- Overall, users have few concerns before purchasing with us, but there are important blockers that can cause some users to quit
- They mentioned concerns about quality (17%) and effects, meaning how they would feel, also at 17%.
- Many users also reported fear of being scammed or receiving a non-legitimate product, mentioned by 24% of users.

What was your biggest fear or concern before purchasing from Mynd Mushrooms?

For users, there are a few topics that could make their decision easier, such as adding discounts (20%), including more and clearer information on the website (9%), and improving the website layout and experience (4%)

Conclusions

- There are two main strategies that can help users complete their purchases.
- Offering discounts is the primary strategy for almost 21% of users.
- Clear communication about our product is also essential, including transparency about effects, delivery, and composition.
- Some users also mentioned improving website usability, representing 4.65% of users.

What could we have done to make your decision easier?

Only 61% of users highly recommend our product to a friend, and as we have seen previously, friend recommendations are important to us; 50% of users also reported difficulty finding the right product

How likely are you to recommend Mynd Mushrooms to a friend or colleague?

How easy was it to find the exact product you were looking for?

Our audience is mainly composed of young people aged 25–44 and they love strawberry mango and blue raspberry lemonade as new flavors

What is your age group?

Which new gummy flavors would you like us to make next?

When recommending Mynd to friends, users mention great taste, fast delivery, and a calm, uplifting vibe

If you were describing Mynd Mushrooms to a friend, what would you say?

It's the easiest, most reliable, and tastiest way to expand your mind safely using mother nature's ingredients

They are great for studying or big projects. Keeps you focused and the distractions minimal

good taste, fast, quick delivery

Looks like professional quality and dosing

Lovely, relaxed, giggly, mellow even just one square is a nice little buzz

I have put so many friends on to Mynd products. The gummies helped cure my friend's post-partum depression. Another friend became far more social and it helped with his anxiety.

I always say the chocolates are super happy and fun and never make you feel bad or go into a dark place. Plus everything tastes great!
